

ADVISORY NEIGHBORHOOD  
COMMISSION 2D - SHERIDAN KALORAMA

# PLEASE WATER YOUR STREET TREES

From your local Advisory Neighborhood Commissioners

## DEAR NEIGHBOR,

As your local liaisons from DC Government, we are asking for your help in watering and caring for the new street trees and grass planted in front of your property.

The City of Washington DC does NOT water or care for trees and grass between the sidewalk and the street. It is the property owner's responsibility to maintain this area.

With a very hot summer ahead, we are counting on you to do your part and care for the newly planted street trees, grass, and sod in front of your property.

Our most sincere thank you for your help in keeping Massachusetts Avenue green.

## WE ARE HERE FOR YOU

ANC Commissioners represent and speak up for our residents' needs including: interacting with the numerous embassies in our area, assisting with traffic and parking issues, advocacy for historic preservation and landscaping, review of new construction projects, and supporting neighborhood initiatives.

Please feel free to reach out to us with any questions regarding this letter or other neighborhood issues.

### HOW OFTEN TO WATER STREET TREES

- Water 3x a Week for 10-15 Minutes
- Weed the tree mulch bed as needed
- Replace the mulch next spring

### GRASS /SOD

- Water 3x a Week for 10-15 Minutes
- Mow as needed

Visit [restoremassave.org](http://restoremassave.org) for more info on tree care
