

growing & **sustain**ing **elegant trees** & **landscape** on **embassy row** for the **21st century**

RESTORE MASS AVE

FRIENDS PRESERVING A LANDMARK AVENUE

Top: American lindens in Sheridan Circle planted 1904, in 1945. Bottom: 1892 plan for extending Mass Ave westward. MLK Library.

The "coherence and unity" of the architecture and landscape on the extension of Massachusetts Avenue is "unique in the city and perhaps the nation."

— NATIONAL PARK SERVICE, 1974

RESTORE MASS AVE

Friends working together to re-green Embassy Row

Support our projects on the Great Grand Avenue.

Here's what we do:

- **Grow and sustain trees and landscape**, so thousands who pass will enjoy shade and calm.
- **Share our model** for growing trees on busy streets though local participation.

TREES

- Honor and protect our oldest trees.
- Plant new trees of the right species where needed.
- Grow and sustain "next gen" trees planted in the last two decades, through:
  - Local owner care • Treekeepers
  - Professional services

HISTORIC LANDSCAPE

- Arrange shrubs and open space to frame views.
- 2026 initiative to improve Sheridan Circle medians.

EDUCATION

- Host public tree tours • Give embassies help and information.

YOU can help us create the future vibrant street based on the wisdom of our city's planners 100 and 250 years ago.
